

ATTESTATION OF CONFORMITY (CERTIFICATE OF COMPLIANCE)

2018-Z-0142

This is to confirm that the below stated composite material for modular structures is tested in accordance with NFPA 701-10, Method 2 by an EN ISO/IEC 17025:2005 accredited testing laboratory.

The conformity to NFPA 701-10, Method 2, is confirmed.

The requirements of the standard are fulfilled.

Issued to:	Serge Ferrari S.A.S. Zone Industrielle BP 54 F 38352 La Tour du Pin Cedex France
Product Type / Model:	Composite material for modular structures PRECONTRAI [®] 932
Manufacturer:	Serge Ferrari S.A.S. Zone Industrielle BP 54 F 38352 La Tour du Pin Cedex; France
Requirements:	NFPA 701-10, Method 2
Test report Reference number	101065691MID-001b
Validity	2023-01-25, extension is possible
Attestation comprises:	1 page, 1 annex

The examination has been carried out on test samples of the product, submitted by the manufacturer. The attestation does not include an assessment of the manufacturing plant.

Grad. Eng. B. Ruhle
Manager of the certification office

The publications of the Attestation of conformity, also in the form of extracts and references to tests or certification for advertising, need in every case the written agreement of the MPA Dresden GmbH. Every page of this certificate is stamped with the seal of the MPA Dresden GmbH.

Specification of the product

TECHNICAL SPECIFICATIONS

Product	Composite material for modular structures
Trade name	PRECONSTRAINT® 932
YARN	PES HT 1100 Dtex
TOTAL MASS	950 g/sqm
WIDTH	267 cm (-1mm/+1mm)
TENSILE STRENGTH	420/400 daN/5cm CH/TR
TEAR STRENGTH	55/50 daN CH/TR
ADHESION	12 daN/5cm
FLAME RETARDANCY	NFPA 701
