

Product certification schedule**PZP 009 CHW****Certification of timber derived materials**

Name of schedule	Certification of timber derived materials	
Type of products	Timber derived materials (raw, coated, veneered or painted) for application in the building industry with requirements on the fire behavior	
Applied Standards and Specifications	Directive (EU) no. 305/2011 of the European Parliament and the European Council dated 2011-03-09 (Construction Products Regulation)	
	Decision of the Commission 1997/462/EU	
	Product standards	EN 13986: 2004+A1: 2015
	Test and classification standards	EN 13501-1 EN ISO 11925-2 EN 13823 EN ISO 1716 (Test Standards dependant on classification)
Application	<p>Documents to be submitted to the certification body of MPA Dresden GmbH:</p> <p>Full information on the applicant, manufacturer and all production facilities, explicit name of the product.</p> <p>Complete technical documentation on the product (intended use, load-bearing / non-load bearing, inside / outside, technical datasheets, construction, specification of raw materials and component parts used including description of production steps which lead to improvement in fire classification, test plan</p> <p>Manufacturer's declaration on System 1 categorisation)</p>	
Contractual conditions	<p>With initial certification the conclusion of a certification contract and recognition of the MPA Dresden GmbH rules of procedure for certification</p> <p>Where the manufacturer and production facility are different companies, contractual agreements are to be concluded between the two and these submitted to the certification body</p>	
Sampling	<p>By notified body for type testing and tests in the case of alterations to the product or manufacturing process, the sampling procedures in accordance with the Standard specifications are to be used</p> <p>A subsequent delivery by the manufacturer is permissible with adequate labelling by the sampler</p>	
Test	Type test and issuance of a classification report by the MPA Dresden GmbH notified testing laboratory based on the above stated Standards and specifications.	
Initial inspection	<p>Inspection of the factory and factory production control by the MPA Dresden GmbH personnel or an approved subcontractor (as per list) with the aid of product-specific checklists and the compilation of an inspection report.</p> <p>An EN ISO 9001 certification will be taken into account within the scope of the inspection.</p>	

Product certification schedule

PZP 009 CHW
Certification of timber derived materials

Certificates	Attestation of constancy of performance in System 1
	Validity: indefinite
	A list of the certificates will be published on the MPA Dresden GmbH website with the following information: Certificate owner, product & type designation, system, certificate number, date
Mark of conformity	No conformity mark The certificate number consists of: Number of the notified body / reference to CPR / consecutive number See rules of procedure for certification for regulations on the use of the certificate number.
Perpetuation	Inspection Inspection of the factory and factory production control in accordance with the Standard specifications by the competent MPA Dresden GmbH personnel or an approved subcontractor (as per list) with the aid of product-specific checklists and the compilation of an inspection report. Inspection frequency: twice yearly
	Examination and evaluation of the results of the inspections
	Alterations to the product: Where alterations are made to the product, an amendment to the attestation of constancy of performance can be issued upon application by the manufacturer. The necessity and scope of additional tests and inspection is decided by the certification body.
